Stay informed with GEZE UK latest product guide

GEZE UK's latest product guide and price list has been completely revised and updated to make it even easier for architects, architectural ironmongers, and specifiers to select the most effective product for their needs.

The detailed, illustrated technical guide provides specifiers with essential information about GEZE's extensive range of door closers, window control systems, sliding door fittings, glass door fittings, and smoke and heat extraction systems and now lists all door closers according to type: with guide rail, link arms, integrated or transom mounted. It also includes the latest editions to the product range.

Created to be completely user-friendly, the guide is divided into five easy-to-use sections so that the comprehensive range of products can be found quickly and efficiently, whilst also providing users with a handy reference guide to the applications of all GEZE products.

It includes technical drawings, application descriptions and finishes as well as glass preparation information and technical information on a wide variety of solutions for toughened glass.

The Product Guide is available electronically or as hard copy. To order a copy email info.uk@geze.com.
