## **New Platform Lift Company offering blends in effortlessly**

***The Platform Lift Company has upgraded its product range for 2021 with a new Italian designed open style platform lift. This quality engineered wheelchair lift which carries the CE mark, is designed to reach distances of up to 3 metres and can be made to specification.***

Cleanly designed for a timeless look, the new [open style platform lift](#) available from the Platform Lift Company, effortlessly blends into both commercial and residential environments. This product excels in both indoor and outdoor settings to overcome architectural barriers such as a difference in levels or steps.

With its small footprint and compact design, the open style platform lift saves on space and is independent of fixings, a machine room or external cabinet. It can be fitted within a day and is freestanding: no pit or building works are required.

The belt-driven platform lift is Part M Compliant (certified to EN81-41). Virtually silent in operation, it transports its passengers comfortably and safely to the next floor.
