## **The Safety Letterbox Company at One Maidenhead**

***Get Living, renowned for pioneering Build-to-Rent (BTR) developments, has once again raised the bar with its latest project, One Maidenhead. Set in the vibrant Thames Valley town, this development promises to redefine modern living.***

A key aspect of this groundbreaking project is the seamless integration of bespoke mailbox solutions provided by The Safety Letterbox Company. With meticulous attention to detail, The Safety Letterbox Company's design team collaborated closely with architects to ensure the exact requirements of the project were met.

The result? 438 MODA 260 mailboxes in Slate Grey, manufactured at The Safety Letterbox Company's state-of-the-art facility in Neath, South Wales, were seamlessly installed by their British installation team across all blocks and entrances of One Maidenhead. These mailboxes, meticulously designed to blend into the architecture, offer residents 24/7 access to their mail in a secure lobby environment.

The MODA 260 Horizontal mailbox stands out as the ideal choice for this project, offering a dynamic yet cost-effective solution. Its flush recessed design not only maximizes space in the lobby but also enhances ease of access for residents. Moreover, being supplied by a UK manufacturer, The Safety Letterbox Company ensures comprehensive support for residents and staff of One Maidenhead. From replacement keys to any other mailbox needs, their dedicated team is committed to providing unparalleled service.

One Maidenhead marks a significant milestone in the evolution of BTR developments, setting new standards for luxury, functionality, and design innovation. With The Safety Letterbox Company's tailored solutions seamlessly integrated, residents can look forward to a truly exceptional living experience.
