Luxury panel doors for Chelsea Townhouse

Ahmarra's bespoke panel doors were selected for a period property situated in Glebe Place, one of London's most sought after streets in the heart of the Royal Borough of Kensington & Chelsea.

"We worked closely with both the owner and architect to ensure that the doors were a perfect complement to the exclusive interior of this home," said Gerry Crook, Ahmarra's Sales Manager. "Our panelled doors are made-to-order in our Portsmouth factory using time-honoured skills and we take great pride on the quality of our product and service."

The customer chose the classic Windsor three panel door design in a rich, dark walnut veneer from Ahmarra's Artisan Panel Door range.

Ahmarra's reputation for excellence has led to it supplying panelled timber doors for some of the UK's finest interiors, from private homes to luxury hotels and commercial buildings. For more information, call 02392 389 076 or visit www.ahmarra.co.uk
