## **Delta Membrane Systems Limited at the 2023 CN Specialist Awards**

***Delta Membrane Systems Limited were delighted to attend the 2023 CN Specialist Awards at a glittering ceremony held at the Hilton London Metropole.***

Celebrating its 19th year, the Construction News Specialists Awards brought together more than 500 of the UK's leading specialist contractors for an evening of celebration, recognition, and networking.

Delta Membranes Systems Limited were delighted to be named as finalists in the '**Innovation of the Year (Non-Contractor)**' category for the Delta MS 500 Fire Retardant System.

Delta MS 500 Fire Retardant Membrane is an extremely effective Type C, cavity drained protection waterproofing system with a fire classification of B-s2, d0. The first Fire Retardant Type C Membrane System to be launched in the UK market.

Delta MS 500 Fire Retardant System is about putting people's safety first along with future proofing structures. How we design, build, maintain a waterproofing solution and look after the safety of the buildings we live or work in, protecting those that use them.

The judges commended Delta's entry as a "*An interesting presentation of a novel product*"

Congratulations to Boss Cabins who were named as winners of the category.

Delta's MD, Kevin Dodds said "Huge congratulations to all the winners, it was a delight to join you in the celebrations. I am immensely proud of the Delta team to be named as finalists. Being shortlisted for the CN Specialists Award speaks volumes about our commitment to innovation and excellence in the waterproofing sector. We are constantly pushing boundaries, driving new products, and providing exceptional services to our customers. This recognition fuels our motivation to continue innovating and improving."

Delta Membrane Systems Limited is a manufacturer and provider of specialist structural waterproofing solutions, covering Type A, Type B, and Type C waterproofing, combination waterproofing, damp proofing, basement drainage, flood resilience and ground gas protection.

Delta unites innovative products with highly skilled waterproofing design specialists. Our in-house team of technical consultants support our clients by providing comprehensive, reliable, and expert advice, identifying, and mitigating risk and establishing opportunities for added value.

Projects include commercial and residential structures, new-build and refurbishment, housing developments and civil infrastructure.

Their nationwide network of Delta Registered Installers offers a fully guaranteed installation service. Delta proudly supports the Women of Waterproofing Networking Group. An independent networking group that promotes gender equality in the waterproofing sector, seeking to inspire, retain and attract females.
