New website for parcels delivery service from The Safety Letterbox Company

The Safety Letterbox Company has launched a new dedicated website for its expanding intelligent parcels delivery system, myRENZbox.

The myRENZbox system is designed and manufactured to completely eliminate the issue of missed parcel deliveries. The future-proofed parcel box collection is full of dynamic parcel solutions for industries including residential and student living; business and retail; couriers and logistics.

As part of the Renz Group of companies, The Safety Letterbox Company has developed a range of intelligent parcel boxes to securely accept deliveries, notify the recipient and allow for the return of items if unsuitable. From this proven platform, a host of software processes have also been developed to work across a wide range of industries.

MyRENZbox delivers a quick return on investment in many ways. The systems are extremely versatile with many configuration modules uses include:

- To automate and guarantee parcel delivery in the office, home or other place of residence.
- As a vital link in omnichannel retailing, maximising the customer experience throughout their whole.
- When used as a business solution to keep your business or manufacturing plant running at maximum efficiency and ensuring stock is where you want it, when you need it.
- Or as gamechanger for couriers, bringing together efficient delivery and a sustainable solution.

To find out more about myRENZbox or to arrange to see the demo system in action, contact richard.wigley@safetyletterbox.com , call 01639 633525 or visit <https://safetyletterbox.com/parcel-boxes/>
