**July 25<sup>th</sup> 2023**

## **Coppermaker Square in collaboration with The Safety Letterbox Company**

***Stratfords Coppermakers Square offers a 'new standard' in rental living: utmost attention to design and aesthetics flows throughout the development, including exceptional work and social facilities, beautifully landscaped gardens, 24 hr concierge services, on site gym and spa and utmost attention to detail throughout. This Includes the mailbox design and vitally the finish, produced by The Safety Letterbox Company offering the ability to work with clients on any site profile and brief.***

The client approached The Safety Letterbox Company with a very specific requirement, with a desire to reflect the project throughout all products and in every inch of the project. A finish was required to be in-keeping with the brief.

A few bespoke options were explored and the finish of choice was a bespoke hand applied copper coating on stainless steel.

This process was then applied to the MODA mailboxes which was carefully and professionally created to fit the specific brief. Samples were produced for design meetings, to discuss finer detail such as bespoke engraved number and matt bonze locks. The product was also fitted with additional aperture restrictors to comply with Secured by Design Homes 2023.

**Ends**
